

Captain Walt's Log

Take Me Fishing Issue

April is a good time to make plans for your fishing outings for the year. The sooner you schedule those trips, the better chance you have of getting your choice of dates. Spring means crappie and walleye fishing on the Fox Chain O' Lakes in April, May and June. The warmer weather of summer will provide some great bass fishing on Geneva and Delavan in May through August. We do fish seven days a week, but recommend fishing during the week to avoid the crowds.

So get a group of your friends/coworkers together and let's go fishing! Arrange a fishing trip with your family! Remember how much fun it was when you were a child and they took you fishing? Look at these pictures from last season and imagine how much fun you will have fishing with coworkers/friends/family. Schedule your spring and summer trips now! Don't delay, call today!
